A BRIEF OVERVIEW OF INTEGRITY TITLE

Integrity Title Records (ITR) is the largest provider of title plant access across Texas and New Mexico with over 1,400 title plant county subscriptions across the state. The Title Plant platform consists of two parts: the current keyed plant, with the geographic index back typically to 1960's or 1970's data, but at minimum 1/1/1979 with images attached and a backplant which consists of historical card or tract book plants, Clerk index and land record document images, typically back to sovereignty, and starter and base files. ITR has always been the leader in technology and innovation to the title plant industry since it was the first to launch title plant access through the internet. Integrity Title Company (ITC) is the licensed agent in the state and covers high quality title evidence in the 91 title plant counties. Within the next 3-4 months, ITC is partnering with various software clients to provide the optimum integration efficiency for title evidence clients utilizing Ramquest, SoftPro, and Resware systems.

Below are the highlights for ITR from the most recent 2017 stat sheets:

**Largest number of Texas counties
available for access with 91 title plants.**

**Covers the highest percentage of the Texas population
with 88.7% coverage of the state. (25,097,627)**

**Covers the highest percentage of counties where title premium
is remitted with 94% coverage. (1,670,882,744)**

**ITR has complete coverage to the top
30 counties in Texas and 45 of the top 50 counties!**

**Only title plant provider covering all of the
Texas Metropolitan Markets (20 of the 22 in TX):**

* Houston	* Dallas/Fort Worth	* San Antonio
* Austin	* McAllen	* El Paso
* Corpus Christi	* Brownsville	* Killeen/ Temple
* Beaumont	* Lubbock	* Laredo
* Amarillo	* Waco	* College Station
* Tyler	* Longview	* Abilene
* Midland	* Odessa
